Digital Marketing

BRENNAN JENKINS

FRONT END DEVELOPER

ABOUT ME

A Front-End Developer & former business owner with over 10 years of experience crafting high-performance, user-centric digital experiences. My career is defined by a commitment to clean, scalable code and a deep understanding of the end-to-end user journey.

Founding and operating a business for three years enabled me to bridge the gap between complex technical requirements and overarching strategic goals. I excel at delivering robust front-end solutions that drive both user engagement and measurable business growth.

EXPERIENCE

Wizmedia | Futwiz

Front End Developer

- **Engineered a robust in-house API** to support the development of a web platform for the gaming sector
- **Designed and developed React Native mobile applications** for Futwiz EA FC 26's career mode and Pokemon Pack Opening Generator.
- **Engineered intuitive pathways for users** to access game statistics and relevant information.
- **Re-developed the FitWiz website** using React and Next.JS, implementing SEO best practices and SSR to accelerate page load speeds, directly improving organic search rankings and user retention.
- **Partnered closely with Electronic Arts (EA)** to ensure all technical development remained strictly aligned with contractual obligations, mitigating legal risk and ensuring long-term partnership stability.

Kinesso

Drupal Developer

- **Collaboration with a multidisciplinary team** to deliver end-to-end user-centred services, ensuring alignment between user needs, business goals, and technical feasibility.
- **Weekly client engagement** to maintain and understand core website requirements and regular site maintenance updates.
- **Utilised expertise in design tools** such as Sketch, Adobe Creative Suite and Figma ensuring 100% design-to-development accuracy and cross-platform visual consistency.
- **Configured and maintained Drupal multisite set ups**, ensuring ongoing updates to inline with most recent security patches

TOOLS

Vercel
Plesk
Expo
Yext
WPEngine
Google Web Design
Cursor / VS Code
Google Optimize
WebTrends Optimize
Optimizely
Force24 platform
GitHub
Jira
Terminal
Adobe Creative Suite
Figma
Sketch
MacOS and Windows

Search Laboratory | Havas Market UK

Front End Developer

- **Re-engineered the Homebase store locator** using React, integrating with Yext to manage location data for hundreds of stores and ensure real-time accuracy across the platform.
- **Maintaining the server** via WPEngine and working with WordPress network multi-sites.
- **Creation of HTML animated ads** using Google Web Designer, ensuring seamless integration for deployment via DV360.
- **Generated CRO journeys on client sites** using Google Optimize focussing primarily on A/B testing and transitioned to using WebTrends Optimize and Optimizely post 2023.
- **Developed a variety of PR campaigns** such as the development of the Soliant Visual Impairment tool, serving as a campaign to raise awareness through an interactive, web-based accessibility simulation.

Epitome Digital

Founder

- **Strategic account management** acting as the primary point of contact for all stakeholders and maintaining a 100% client retention rate.
- **Fostered strong client relationships** by aligning project roadmaps with business objectives, ensuring a continuous pipeline of high-quality, on-time deliverables.
- **Navigated complex project requirements** managing scope creep and project pivots through proactive negotiation; bridging the gap between engineering constraints and business requirements to deliver viable, high-impact solutions.
- **Hired and mentored a Junior Front-End Developer** apprentice with zero prior industry experience, partnering with Doncaster College to design and execute a comprehensive apprenticeship program.

Force24

Front End Developer

- **Built custom branded emails and landing pages** for a variety of clients using HTML and CSS.
- **Developed dynamic emails** with interchangeable components based on user data to provide a personal e-commerce journey using Razor.
- **Knowledge of email marketing platforms** such as Force24, MailChimp, Campaign Monitor, HubSpot and Klavio
- **Cultivated a strategic partnerships** with a variety of clients such as Michelin Tyres, helping them bolster the global sales performance of their Pilot Sport Tyres.
- **Lead the development of Force24's Digital transformation** shifting from a legacy process to a user-centred digital service, aligning organisational change with technology adoption.
